COURSES

- Data Structure & Algorithm
- Competitive Programming
- Object Oriented Programming
- Operating System
- Data Management Systems
- MERN Stack Web Development

INTERESTS

- Skipping Rope
- Badminton
- Reading Books

OBJECTIVE

I am a coding enthusiast having good hand in problem solving skills and have great knowledge of Open-Source Contribution. Currently an undergraduate who is always ready to learn and explore new things.

EXPERIENCE

GIRLSCRIPT SUMMER OF CODE – Mentor

March 2021- May 2021

Reviewed DSA codes of an overwhelming number of passionate contributors.

Guided them to make sure that quality codes with well formatted and documented are passed without any bugs and missed edge cases. And, then finally merged them to the AlgoTree.

Language used: C++, Java and Python

PROJECTS

- 2048 Game made using HTML, CSS and JavaScript
